Office Action Summary	Application No. 10/608,865	Applicant(s) LEWIN ET AL.	
	Examiner Daniel M. Sullivan	Art Unit 1636	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

The originally filed claims have not been consecutively numbered as required under Rule 1.26. Specifically, there are two claims 8 in the originally presented claim set. Therefore, the second claim 8 through claim 50 have been renumbered claims 9-51, respectively. Claims 17-50 were canceled in the preliminary amendment filed 27 June 2003. Thus, claims 1-16 and 51 are pending. A response to this Office Action should include an amendment to correct the claim dependency consonant with the renumbering of the claims.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I.-VI. Claim 1-16, drawn to a method of assessing the efficacy of an obesity treatment comprising identifying a difference in the expression level of an OB gene, wherein Inventions I-VI are distinguished in being drawn to the method wherein the OB gene assayed is selected from OB1-6, respectively, classified in class 435, subclass 4.
- VII. Claim 51, drawn to a composition secreted by the pituitary gland, classified in class 536.

The inventions are distinct, each from the other because of the following reasons:

Groups I-VI are directed to distinct methods of assessing the efficacy of an obesity treatment. Each method comprises the assessment of an unrelated gene (see Table 2, page 11 of the specification) and therefore comprises a distinct mode of operation. In the absence of an

Art Unit: 1636

allowable product claim to which the process claims are limited to making or using, examining the methods of Groups I-VI together in a single application would impose a serious burden on the Office. As each method is limited to analyzing the expression of a gene to which the other methods are not limited, examination of each method requires a separate search for the gene that distinguishes the respective methods. In addition, because each method encompasses subject matter not encompassed by the other methods, a determination that any one method is patentable over the art does not adequately support patentability of any of the other methods. Therefore, patentability of each method must be determined separately.

The product of claim 51 is unrelated to the processes of Groups I-VI because the composition of the claim is not disclosed as useable in or made by the methods of Groups I-VI. As the products and processes are unrelated and therefore might be disclosed independently of one another, a search and examination of the unrelated inventions together in a single application would constitute an undue burden on the Office.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
